DUNCAN MACGREGOR

freespirit

Duncan MacGregor's *free spirit* is a dramatic exhibition of collectable Limited Edition seascapes from a master of the genre. At once expressive and exhilarating, these powerful images carry us out through storm-tossed waves, and return us to the safe haven of the shore with an elemental energy that takes our breath away. One very special highlight of the collection is a magnificent pure bronze sculpture that encapsulates all the elegance and energy that characterises Duncan's work.
