## The cityscapes of csillaorban...

...occupy a unique position  
on the current art market.

Although they depict specific and  
often recognisable locations, their  
particular brilliance lies in the creation  
of atmosphere rather than the  
accuracy of detail.

By merging colours and blurring  
the reflected light in the rain-slicked  
streets, Csilla conveys the fast-moving  
essence of her chosen subject in her  
own distinctive way.
