Creating this free interpretation of the landscape is both challenging and liberating. We paint what we see but it is an **intensely personal shared vision**

CHRIS AND STEVE
rocks

INVITATION

These monumental new compositions from Steve and Chris Rocks are breathtaking in their scope and ambition.

Their atmospheric palette and extraordinary energy . . .

. . .combine with their sheer size to create an awe-inspiring impact.

Each image is inspired by the lie of the land - the contours and colours rather than the literal details of the scene – so has its roots in reality rather than imagination.
