

The show-stopping cityscapes of Henderson Cisz have established his international reputation as one of the finest artists of his generation and a virtuoso of urban style.

Henderson has formed an intense and loving artistic relationship with many of the world's most iconic cities, and his arresting interpretations breathe life into the elegant boulevards of Paris and the imposing skyscrapers of New York. Officially named as Artist of the Year, Henderson is also the holder of the coveted John Solomon trophy, which is awarded annually to the artist judged to have made the greatest impact on the art market; a testament to the fact that his work has been both successful and immensely influential in the world of fine art.
